

CALL FOR PAPERS

ICAIDSP 2021
Mar 08-09, 2021
Bangkok, Thailand

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICAIDSP 2021 : International Conference on Aerospace Instrumentation and Digital Signal Processing is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Aerospace Instrumentation and Digital Signal Processing. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Aerospace instrumentation
Digital computers for
instrumentation
Integrated data processing
Digital signal processing for
flight control and evaluation
Data acquisition, processing and
transmission in manned spacecraft
Special instrumentation for Apollo
developmental spacecraft

Data acquisition systems
Flight test instrumentation
Sensor and transducer design
considerations for flight test
instrumentation
Noise, filtering and correlation
Analysis of random signals
Analyzing random processes
