

# CALL FOR PAPERS

**ICAMF 2021**  
**Mar 08-09, 2021**  
**Bangkok, Thailand**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICAMF 2021 : International Conference on Advances in Multisensor Fusion is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Advances in Multisensor Fusion. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Multisensor fusion  
Sensor/actuator networks  
Distributed and cloud architectures  
Bio-inspired systems and evolutionary approaches  
Methods of cognitive sensor fusion  
Bayesian approaches  
Fuzzy systems and neural networks  
Biomedical applications

Autonomous vehicles of land, sea and air  
Localization, tracking, SLAM  
3D perception  
Manipulation with multifinger hands  
Robotics  
Micro/nano systems  
Information fusion and sensors  
Multimodal integration in HCI and HRI
