

# CALL FOR PAPERS

**ICBBM 2021**  
**Mar 08-09, 2021**  
**Bangkok, Thailand**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICBBM 2021 : International Conference on Biorobotics and Biological Machines is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Biorobotics and Biological Machines. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Biorobotics	Multibody dynamics and control
Biorobotics Engineering	Biological signal analysis
Biorobotics, methods and applications	Embedded programming
Biomedical robotics and devices	Biological robot
Biologically inspired mechanisms and robots	Biological machines
Creating motion without rigid joints and rigid links	Biological devices
New component technologies	Biomechatronics
Soft materials and novel fabrications methods	Biomimetics
Novel actuator technology	Medical robotics
Novel fabrication technology	Robotic surgery
Biologically inspired novel mechanisms	Biomedical robotics and biomicrosystems
Soft wearable robots	Neurorobotics, surgical robotics and surgical planning
Control of robotic systems	Mechanobiology and developmental control
