

CALL FOR PAPERS

ICBEA 2021
Mar 08-09, 2021
Bangkok, Thailand

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICBEA 2021 : International Conference on Bioscience Engineering and Applications is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Bioscience Engineering and Applications. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Bioscience engineering
Biological systems and models
Engineering models in bio-medicine
Computer assisted intervention systems
Medical robotics
Nano-medicine
Nano-mechanisms for molecular systems
Nano-bio-computing
Biomedical and biological sensors
Cell engineering
Molecular and cellular systems
Tissue engineering
Neuro-engineering

Biomedical image processing and analysis
Microarray technologies
Biomedical data engineering
Biomaterials
Bioengineering applications for people with disabilities and the elderly
Biomedicine engineering
Bioinformatics of diseases
Biomedical text mining and ontologies
Biological data mining and visualization
Biomedical intelligence and clinical data analysis
Biomedical signal/image analysis
Comparative genomics
