

CALL FOR PAPERS

ICBIHIS 2021
Mar 08-09, 2021
Bangkok, Thailand

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICBIHIS 2021 : International Conference on Biomedical Intelligence and Healthcare Information Systems is

the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Biomedical Intelligence and Healthcare Information Systems. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Biomedical signal processing
Biomedical intelligence and clinical data analysis
Biomedical imaging and image processing
Biomedical electronics
Bioinstrumentation, biosensors and bio-micro/nano technologies
Bioinformatics and computational biology, systems biology and modeling methodologies
Cardiovascular and respiratory systems engineering

Neural and rehabilitation engineering
Cellular, tissue and genetic engineering
Cellular and tissue engineering and biomaterials
Biomechanics and robotics
Therapeutic and diagnostic systems, devices and technologies and clinical engineering
Healthcare information systems and telemedicine
Biomedical engineering education and society
