

CALL FOR PAPERS

ICCICHCT 2021
Mar 08-09, 2021
Bangkok, Thailand

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICCICHCT 2021 : International Conference on Current Implementations of Computational Health Care Technology is

the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Current Implementations of Computational Health Care Technology. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Computational health care
technology

Computational technology for
effective health care

Healthcare information systems

Current implementations of health
care information technology

Computational intelligence
techniques in medicine

Computational intelligence in
medical imaging

Disease prevention

Disease diagnosis

Disease prognosis

Treatment planning

Disease management

Computational tools and techniques
for biomedical signal processing
