

CALL FOR PAPERS

ICCPGW 2021
Mar 08-09, 2021
Bangkok, Thailand

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICCPGW 2021 : International Conference on Chemical Pollution and Global Warming is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Chemical Pollution and Global Warming. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Chemical pollution
Toxic chemicals
Causes of chemical pollution
Sources and effects of chemical pollution
Impacts of chemical pollution on humans and wildlife
Control of chemical pollution
Chemical protection policy and legislation
Chemical contaminants and issues of emerging concern
Multiple stressors and biological responses

Chemical food safety
Environmental policy and education
Chemical pollution monitoring and control technology
Human and ecological risk assessment
Pathways of pollution
Chemical pollution of the environment
Monitoring of environmental chemicals
Chemical water pollution
Hazardous chemicals and water pollution
