

# CALL FOR PAPERS

**ICCRC 2021**  
**Mar 08-09, 2021**  
**Bangkok, Thailand**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICCRC 2021 : International Conference on Cloud Robotics and Computing is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Cloud Robotics and Computing. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

- Cloud robotics
- Cloud computing
- Applications of cloud robotics
- Advances in cloud robotics
- Global library and cloud systems
- Cloud-based approaches to motion planning, task planning, and multi-robot collaboration
- Scheduling and coordination of systems
- Autonomous mobile robots
- Cloud medical robots
- Industrial robots and cloud robotics
- Current cloud robotics research
- Limitations and advantages of cloud robotics
- Cloud and robotics
- Web services
- Telerobotics
- Architecture of cloud robotic systems
- Cloud robotics design
- DSL for cloud robotics
- Software engineering
- Distributed systems
