

CALL FOR PAPERS

ICCTR 2021
Mar 08-09, 2021
Bangkok, Thailand

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICCTR 2021 : International Conference on Current Trends in Radiology is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Current Trends in Radiology. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

- | | |
|--|--|
| The growth of radiology | Advances in abdominal imaging |
| Current trends in radiology | Computed Tomography Angiography |
| Cost and value in radiology | Oncology treatment |
| The market of radiology | Prostate cancer treatment |
| Radiology industry trends | Lung cancer treatment |
| Role of Annexin A5 Imaging in cancer treatment | Advances in MRI techniques and applications |
| Detection of breast cancer by mammography screening | Digital mammography for breast cancer |
| PET/CT scans for cancer | Advances in diagnostic interventional pulmonology. |
| Multiparametric magnetic resonance imaging (MP-MRI) in management of prostate cancer | Advances in Mammographic Imaging |
| Cancer prognosis | Advances in retinal ganglion cell imaging |
| Role of CT, MRI, US and PET in liver cancer imaging | Retinal OCT Imaging |
| Medical imaging reduces surgery | |
