

CALL FOR PAPERS

ICDMHVS 2021
Mar 08-09, 2021
Bangkok, Thailand

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICDMHVS 2021 : International Conference on Design and Maintenance of Hospital Ventilation Systems is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Design and Maintenance of Hospital Ventilation Systems. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Hospital ventilation systems	
Importance of hospital ventilation systems	
Maintaining air quality	Aspects of efficient ventilation in hospitals
Removal and filtration of contaminated air	Environmental infection control in health-care
Protection of vulnerable patients from contamination by others	Airborne infection control
Protection of staff, patients and visitors from contamination by specific disease source	Ventilation rate changes
The standards for ventilation systems in hospitals	Considerations regarding mechanical ventilation
Design and maintenance of hospital ventilation systems	Medical ventilator
Mechanical ventilation requirements for hospitals	Functions of medical ventilator
	Life-critical system
