

CALL FOR PAPERS

ICDPST 2021
Mar 08-09, 2021
Bangkok, Thailand

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICDPST 2021 : International Conference on Digital Pathology Software Technologies is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Digital Pathology Software Technologies. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

- Digital pathology
- Digital pathology solutions
- Digital pathology systems
- Digital pathology image analysis
- Opportunities and challenges
- New paradigms and perspectives
- Engineering applications
- Future directions
- Technological perspectives
- Digital pathology environment

- Digital imaging, virtual slides or virtual microscopy
- Computer diagnosis
- Technical performance assessment of digital pathology
- Digital pathology software
- Automatic image quality assessment in digital pathology
- The future development of digital pathology technologies
- Scanning and analyzing
- Data management challenges
- Financial considerations
- Applications and benefits
