

CALL FOR PAPERS

ICDWHE 2021
Mar 08-09, 2021
Bangkok, Thailand

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICDWHE 2021 : International Conference on Data Warehousing in Healthcare Environment is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Data Warehousing in Healthcare Environment. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Healthcare data warehousing	Surgical procedure data
Healthcare data repository	Visit location
Potential uses of a healthcare data warehouse	Insurance information
Research issues in healthcare data warehousing	Patient and provider contact data
Medical data mining	Patient contact information
Warehouse architecture for healthcare data	Appointment information
Data warehouse design methods for healthcare data	Recurring reports
Patient demographics	One time data sets
Booking information	Online reports
Case record data	Single data storage for visualization/analysis tools
