

CALL FOR PAPERS

ICEE 2021
Mar 08-09, 2021
Bangkok, Thailand

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICEE 2021 : International Conference on Engineering Economics is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Engineering Economics. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Engineering economics
Economics of the management, operation, and growth and profitability
Macro-level engineering economic trends and issues
Engineering product markets and demand influences
Development, marketing, and financing of new engineering technologies and products
Creativity and technical entrepreneurship
Technical organizations and their management
Leadership and HRM; motivating/leading technical people
Product development, R&D, design management
Managing engineering and production operations

Project planning, acquisition, organization, leadership/control
Financial management for engineers, cost estimation/accounting
Decision-making processes
Technology and knowledge management
Planning, forecasting and marketing issues
Project and risk management
Economic decision/capital investment analysis; design/project economics
