**Mar 08-09, 2021**  
**Bangkok, Thailand**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICEECRE 2021 : International Conference on Energy Efficiency Challenges and Renewable Energy is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Energy Efficiency Challenges and Renewable Energy. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Education in energy and power engineering  
Clean energy technologies  
Electrical apparatus  
Processing of oil and gas  
Electrical energy processing  
Energy and sustainable development  
Energy efficiency challenges  
Energy and environmental policy

Power electronics and electrical drives  
Geopolitics of oil and natural gas  
Greenhouse gas abatement costs and potentials  
Integration of intermittent power sources and systems  
Quality, reliability and safety  
Renewable energy  
Regulation and regulation uncertainties  
Renewable energy technologies and markets
