

CALL FOR PAPERS

ICEEMT 2021
Mar 08-09, 2021
Bangkok, Thailand

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICEEMT 2021 : International Conference on Energy, Environment and Materials Technology is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Energy, Environment and Materials Technology. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Energy	Heat transfer, boilers, and heat exchangers
Energy system analysis	Metrology, measurement systems in energy sector
Renewable heat systems	Environment
District heating and/or cooling infrastructures in future smart energy systems	Environmental protection in energy management systems
New energy technologies	Wastewater treatment systems
Electricity transmission and distribution	Waste treatment
Energy efficiency in industry, process optimization, and pinch analysis	Waste to energy
Exergy and exergoeconomic analysis	Water system analysis
Renewable electricity generation systems	Hazardous wastes treatment methods
Thermal power plants	Air pollution control equipment in industry, air quality engineering and monitoring
Primary and renewable fuels	Environmental quality management systems
