

# CALL FOR PAPERS

**ICEPTTP 2021**  
**Mar 08-09, 2021**  
**Bangkok, Thailand**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICEPTTP 2021 : International Conference on Electric Power Transformer Engineering, Theory and Principles is

the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Electric Power Transformer Engineering, Theory and Principles. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Electric power transformer  
engineering  
Theory and principles  
Equipment types  
Power transformers  
Distribution transformers  
Phase-shifting transformers  
Rectifier transformers  
Dry-type transformers  
Instrument transformers  
Step-voltage regulators

Constant-voltage transformers  
Ralph ferraro  
Reactors  
Loading and thermal performance  
Transformer connections  
Transformer testing  
Load-tap-change control and  
transformer paralleling  
Power transformer protection  
On-line monitoring of  
liquid-immersed transformers  
Transformer installation and  
maintenance
