

CALL FOR PAPERS

ICEPUE 2021
Mar 08-09, 2021
Bangkok, Thailand

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICEPUE 2021 : International Conference on Electric Power Utilization and Energy is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Electric Power Utilization and Energy. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Electric power utilization
Metering of electric power and energy
The electromechanical meter
Blondel's theorem
The electronic meter
Transformers
Measuring
Loads, load characterization and load modeling
Composite loads and composite load characterization

Composite load modeling
Some general perspectives
Operating modes
Motor, enclosure, and controller types
System design
Illumination
Electric heating and welding
Electric traction
Economic aspects of utilizing electrical energy
