

# CALL FOR PAPERS

**ICESPE 2021**  
**Mar 08-09, 2021**  
**Bangkok, Thailand**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICESPE 2021 : International Conference on Effects of Sea Pollution on Environment is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Effects of Sea Pollution on Environment. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Sea pollution

Causes of sea pollution

Sources and effects of sea pollution

Impacts of sea pollution on Humans and wildlife

Control of sea pollution

Sea protection policy and legislation

Climate changes and marine ecosystems

Chemical contaminants and issues of emerging concern

Coastal eutrophication and hypoxia

Multiple stressors and biological responses

Seafood safety and sustainable mariculture

Environmental policy and education

Sea pollution monitoring and control technology

Human and ecological risk assessment

Pathways of pollution

Direct discharge

Land runoff

Ship pollution

Atmospheric pollution

Deep sea mining

Types of pollution

Acidification

Eutrophication

Plastic debris

Toxins

Underwater noise
