

CALL FOR PAPERS

ICETEA 2021
Mar 08-09, 2021
Bangkok, Thailand

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICETEA 2021 : International Conference on Eco-Technologies for Environmental Applications is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Eco-Technologies for Environmental Applications. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Eco-technology
Eco-friendly technologies and their effects
Eco-technology and sustainable development
Eco-technology for global warming and climate change
New materials and energy sources for eco-technological applications
Control of impacts on ecosystems
Improvement of cleaner processes and products
Eco-marketing and sustainable business strategies
Environmental management systems in the production and services sectors
Ecological engineering methods
Energy efficient systems and energy-saving technologies

Applications of ecological engineering principles
Environmental chemistry
Microbiology
Interactions of organisms and succession of biological communities
Organic and inorganic pollutants
Cloud computing
Recycling
Algorithmic efficiency
Architectural changes
Techno trash
