

# CALL FOR PAPERS

**ICFFEMS 2021**  
**Mar 08-09, 2021**  
**Bangkok, Thailand**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICFFEMS 2021 : International Conference on Fatigue and Fracture of Engineering Materials and Structures is

the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Fatigue and Fracture of Engineering Materials and Structures. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Fatigue and fracture  
Fatigue and fracture of engineering materials and structures  
The mechanics of fatigue and fracture  
The reliability and effectiveness of structural components  
Structural integrity

Engineering design  
Engineering components  
Engineering structures  
Engineering materials  
Metals, polymers, composites and ceramics
