

# CALL FOR PAPERS

**ICFSQM 2021**  
**Mar 08-09, 2021**  
**Bangkok, Thailand**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICFSQM 2021 : International Conference on Flight Safety and Quality Management is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Flight Safety and Quality Management. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Flight safety and safety control  
Human factors in maintenance  
Maintenance errors and mitigating strategies  
Fatigue risk management for maintenance  
Quality control in maintenance  
Maintenance training issues  
Safety leadership in maintenance  
Transition to electronic records  
Authenticity of electronic records

3d printing in aviation  
Repair of composite materials  
Quality and safety management systems  
Approach and landing accidents  
Electronic flight bags  
Cyber security for flight  
Safety skills, knowledge, and analysis  
Higher-risk operations  
Turboprop operations
