

# CALL FOR PAPERS

**ICGGTM 2021**  
**Mar 08-09, 2021**  
**Bangkok, Thailand**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICGGTM 2021 : International Conference on Geohazards, Geomechanical Testing and Methodology is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Geohazards, Geomechanical Testing and Methodology. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Geohazards  
Geohazards risk assessments  
Methodology  
Geohazards and risk  
Geohazards and disaster mitigation  
Geotechnical mapping of  
discontinuities  
Geomechanical testing  
Slope stability analysis  
Risk evaluation  
Risk management and mitigation

Landslides  
Debris flows  
Shallow gas accumulation  
Overpressured zones (including gas  
and shallow water flows)  
Naturally occurring gas hydrates  
and their climate-controlled  
meta-stability  
Mud flows, diapirism and  
volcanism/volcanoes  
Flood basalt  
Earthquakes and seismicity  
Tsunamis from tectonics and  
landslides  
Rock falls and landslides
