

CALL FOR PAPERS

ICAEPE 2021
Mar 04-05, 2021
Barcelona, Spain

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICAEPE 2021 : International Conference on Advanced Energy and Power Engineering is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Advanced Energy and Power Engineering. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Power engineering
Materials for power engineering
Applications of energy engineering
Thermodynamics
Fluid machinery
Theory of machines
Materials science and technology
Circuit theory and network
Electrical machines
Combustion engines
Power electronics

Power systems
Electric power transmission and distribution
Power-system protection
Smart grid technologies
Atmospheric electricity
Renewable and non-renewable energy sources
Energy economics
Energy and economic growth
Economics of energy infrastructure
Energy policy
