

CALL FOR PAPERS

ICFWRCT 2021
Mar 04-05, 2021
Barcelona, Spain

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICFWRCT 2021 : International Conference on Food Waste Recovery and Conventional Techniques is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Food Waste Recovery and Conventional Techniques. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Food waste recovery	Conventional extraction
Processing technologies and industrial techniques	Conventional purification and isolation
Food waste prevention and recovery assessment	Conventional product formation
Food waste management and valorization	Emerging technologies
Sustainability in the food industry	Macroscopic pretreatment
Classification and target compounds	Commercialization aspects and applications
Conventional techniques for recovery	Recovery and applications of enzymes from food wastes
Conventional macroscopic pretreatment	Food waste and materials recovery
Conventional macro- and micromolecules separation
