

CALL FOR PAPERS

ICPNM 2021
Mar 04-05, 2021
Barcelona, Spain

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICPNM 2021 : International Conference on Preventive Nutrition and Metabolism is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Preventive Nutrition and Metabolism. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Biomedicine and preventive nutrition
Primary and secondary preventive nutrition
Preventive nutrition and food science
Nutritional biochemistry and molecular nutrition for disease prevention
Functional foods and nutraceuticals
Natural bioactive compounds
Nutrient and food component bioactivity
Nutritional and medical effects of nutrients and food components

Nutritional and food biochemistry
Isolation and analysis of bioactive food ingredients
Investigation of nutritional biocompounds or food functionality
Nutrient component and food safety
Risk/benefit evaluation for the functionality of nutrients and food components
Safety aspects of food constituents
Food microbiology
Chemical and physical approaches with fermented foods and novel microbial processes
