

CALL FOR PAPERS

ICREESR 2021
Mar 04-05, 2021
Barcelona, Spain

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICREESR 2021 : International Conference on Rare Earth Elements in Sedimentary Rocks is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Rare Earth Elements in Sedimentary Rocks. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Sedimentary rocks
Petrology of sedimentary rocks
Rare earth elements in sedimentary rocks
Density, porosity, and compaction of sedimentary rocks
Evolution of sedimentary rocks
Biochemical and organic sediments and sedimentary rocks
Chemical sediments and sedimentary rocks
Sedimentary structures
Transgressions and regressions
Classification based on origin
Clastic sedimentary rocks
Conglomerates and breccias
Sandstones

Mudrocks
Biochemical sedimentary rocks
Chemical sedimentary rocks
Compositional classification schemes
Deposition and transformation
Sediment transport and deposition
Transformation (diagenesis)
Color and texture
Mineralogy
Fossils
Primary sedimentary structures
Secondary sedimentary structures
Sedimentary environments
