

CALL FOR PAPERS

ICCAE 2021
Mar 22-23, 2021
Dubai, UAE

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICCAE 2021 : International Conference on Construction and Acoustical Engineering is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Construction and Acoustical Engineering. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Architecture, construction and acoustic

Architecture, building, construction, infrastructure and environment

Architecture, construction and environmental engineering

Building electrical systems

Building materials and constructions

Building mechanical systems

Building structural systems

Building, construction and interiors

Composite materials

Computational mechanics

Construction engineering and management

Construction materials and functional materials

Construction materials manufacturing

Construction tools and accessories

Design and construction

Doors and opening parts

Earthquake and tsunami issues

Ecology and land development

Energy saving, energy creation and energy storage

materials and facilities

Engineering equipments and systems

Environmental management

Facility equipments and systems

Finishing and facing materials, elements of the interior

Flooring design and materials

Foundation and retaining walls

Geo-hazard mitigation
