

CALL FOR PAPERS

ICCCT 2021
Mar 22-23, 2021
Dubai, UAE

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICCCT 2021 : International Conference on Contour Crafting Technology is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Contour Crafting Technology. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Contour crafting technology
Applications of contour crafting
Automated construction by contour crafting
Robotic construction by contour crafting
Concrete wall fabrication by contour crafting
Contour crafting for home construction
3D-printed houses
Differences between conventional construction method and contour crafting method

Speed of construction
Cost of construction
Architectural flexibility
Safety and sustainability
Environmental impact of construction
Strength of construction
Contour crafting process and plan optimization
