

CALL FOR PAPERS

ICCEC 2021
Mar 22-23, 2021
Dubai, UAE

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICCEC 2021 : International Conference on Civil Engineering Construction is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Civil Engineering Construction. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Civil engineering construction
Construction management
Construction management and analysis
Construction safety
Civil engineering planning
Planning in construction
Resource requirements
Project management tools
Infrastructure projects
Manufacturing processes
Civil engineering practice
Practical application of new technologies
Environmental concerns

Creating and maintaining structures
Materials science and statistical analysis
Functional structures
Strengthening and rehabilitating structures
Design, construction and maintenance
Construction and structure
Cost control
Schedule control
Materials and construction systems
Building technology
Architecture and the design
Energy and sustainability
