

# CALL FOR PAPERS

**ICCSDDP 2021**  
**Mar 22-23, 2021**  
**Dubai, UAE**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICCSDDP 2021 : International Conference on Concrete Structures, Design, Durability and Performance is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Concrete Structures, Design, Durability and Performance. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Concrete structures	
Reinforced concrete	
Design and behavior of concrete structures	Reinforced and prestressed concrete
Design, durability and performance	Strut and tie modeling
Design methods in reinforced concrete	Construction and the environment
Sustainable construction	Waste construction waste
Possibilities in concrete structure	Embodied energy
Technical concepts	Energy required for concrete
Unreinforced concrete	Corrosion of reinforced concrete
Design basis for reinforced concrete	Corrosion prevention
	Structural design
	Good practice in concrete design
