

CALL FOR PAPERS

ICCSES 2021
Mar 22-23, 2021
Dubai, UAE

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICCSES 2021 : International Conference on Civil Systems, Environment and Sustainability is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Civil Systems, Environment and Sustainability. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Civil systems	Environmental engineering
Civil systems engineering	Next generation power grids
Civil systems, environment and sustainability	Electric power cars, and renewable energy sources
Structural engineering and structural mechanics	Air traffic control and management system
Hydrology, water resources, and fluid mechanics	Modernization of waterways
Building systems	Sustainable development for high-density urban areas
Construction engineering and management	Renewable energy generation
Geotechnical engineering and geotechnical mechanics	Vehicle usage and carbon emissions
