

CALL FOR PAPERS

ICET 2021
Mar 22-23, 2021
Dubai, UAE

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICET 2021 : International Conference on Environmental Toxicology is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Environmental Toxicology. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Environmental toxicology
Sources of environmental toxicity
Classical toxicology,
ecotoxicology, and environmental
toxicology
Environmental change and health
Toxic action of pollutants
Xenobiotic action
Defense responses to toxicants
Air pollution
Soil and water pollution
Environmental metals and
metalloids
Pesticides and related materials

Mutagenic pollutants
Ecological risk assessment
Environmental cancer
Toxic and pharmacological effects
of environmental contaminants
Molecular mechanisms of toxicity
Biotransformation and
toxicokinetics
Toxicokinetic modelling
Molecular, biochemical and
physiological mechanisms
The characterization of
pathophysiological models and
mechanisms
Development of effects and the
identification of biological
markers
