

# CALL FOR PAPERS

**ICGCEC 2021**  
**Mar 22-23, 2021**  
**Dubai, UAE**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICGCEC 2021 : International Conference on Geosynthetics in Civil Engineering Construction is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Geosynthetics in Civil Engineering Construction. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Agricultural Applications  
Aquaculture  
Civil Engineering Areas  
(geotechnical, geoenvironmental,  
environmental, transportation, and  
hydraulic engineering)  
Coastal Protection  
Direct and Life-Cycle Cost Savings  
Drainage and Filtration  
Durability  
Embankments on Soft Soils  
Environmental Benefits  
Geosynthetics as Formwork  
Geotextiles and Geomembranes  
Hydraulic Applications  
Innovations and New Developments

Landfills  
Lightweight Construction  
Mining engineering  
Monitoring  
Pavements  
Physical and Numerical Models  
Polymeric and Clay Geosynthetic  
Barriers  
Properties and Testing  
Quality Control and Quality  
Assurance  
Reinforced Walls and Slopes  
Roads, Railroads and Other  
Transportation Applications  
Seismic Applications  
Sustainability
