

# CALL FOR PAPERS

**ICGWEE 2021**  
**Mar 22-23, 2021**  
**Dubai, UAE**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICGWEE 2021 : International Conference on Global Warming and Effects on Earth is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Global Warming and Effects on Earth. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Observed temperature changes  
Warmest years  
Initial causes of temperature changes  
Greenhouse gases  
Particulates and soot  
Solar activity  
Climate models  
Observed and expected environmental effects  
Extreme weather  
Sea level rise  
Ecological systems  
Long-term effects

Large-scale and abrupt impacts  
Observed and expected effects on social systems  
Habitat inundation  
Possible responses to global warming  
Mitigation and Adaptation  
Climate engineering  
Discourse about global warming  
Political discussion  
Scientific discussion  
Discussion by the public and in popular media  
Surveys of public opinion
