

CALL FOR PAPERS

ICHTMCR 2021
Mar 22-23, 2021
Dubai, UAE

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICHTMCR 2021 : International Conference on High Temperature Materials Chemistry and Research is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of High Temperature Materials Chemistry and Research. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

High temperature thermodynamic measurements
Theory and modeling of high temperature materials
Melts, ceramics, glasses and amorphous materials
Transport, ionic and electronic conductivity, grain boundaries, interfaces and surfaces
Phase structure and metallurgical processes, corrosion

Earth and planetary materials at high pressures and temperatures
Materials for nuclear energy applications
Materials for aerospace applications
Materials for advanced sources of energy
