

CALL FOR PAPERS

ICNMNM 2021
Mar 22-23, 2021
Dubai, UAE

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICNMNM 2021 : International Conference on Nanophysics, Microscale and Nanoscale Measurement is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Nanophysics, Microscale and Nanoscale Measurement. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Nanophysics

Nanotechnology

Manipulation of matter on an
atomic, molecular and
supramolecular scale

Quantum-realm scale

Implications of nanotechnology

Fundamental concepts

Larger to smaller: a materials
perspective

Simple to complex: a molecular
perspective

Molecular nanotechnology: a
long-term view

Current research

Nanomaterials

Bottom-up approaches

Top-down approaches

Functional approaches

Biomimetic approaches

Speculative

Dimensionality in nanomaterials

Tools and techniques

Applications

Implications

Health and environmental concerns
