

CALL FOR PAPERS

ICWRMEE 2021
Mar 22-23, 2021
Dubai, UAE

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICWRMEE 2021 : International Conference on Water Resources Management and Environmental Engineering is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Water Resources Management and Environmental Engineering. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Ecological and Environmental Engineering
Waste water management and aquaculture
Water Engineering
Water resources management and water quality
Ecological Development
Aquaculture
Conservation
Ecosystems and Ecology
Ecosystems management
Environmental economics - sustainable services and systems
Environmental health
Environmental impact assessment
Environmental law - environmental policies

Environmental performance of enterprise
Global environmental change
Health aspects of waste water and solid waste management
Landscape and city planning
Life cycle management and sustainable production
Liquid waste treatment and management
Pollution control technologies
Solid waste management
Solid waste management and recycling
Technology and modeling for sustainable environment
Applications of aquatic ecosystems
Wetland management, and lake, reservoir, and stream restoration
