

CALL FOR PAPERS

ICAAAFM 2021
Mar 22-23, 2021
Istanbul, Turkey

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICAAAFM 2021 : International Conference on Aerodynamics, Aeronautics, Astronautics and Fluid Mechanics is

the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Aerodynamics, Aeronautics, Astronautics and Fluid Mechanics. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Aerodynamics

Developments of spacecraft

Aircraft landing

Aerodynamic forces and structural flexibility

Flight software engineering and testing

Aerodynamic's fundamental concepts

Aeronautical and aeronautical engineering

Branches of aerodynamics

Aerodynamics in other fields

Atmosphere of earth

Structure of the atmosphere

Flow classification

Continuum assumption

Conservation laws

Branches of aerodynamics

Incompressible aerodynamics

Subsonic flow

Compressible aerodynamics

Transonic flow

Supersonic flow

Hypersonic flow

Boundary layers

Turbulence

Bernoulli's principle

Computational fluid dynamics
