

# CALL FOR PAPERS

**ICABA 2021**  
**Mar 22-23, 2021**  
**Istanbul, Turkey**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICABA 2021 : International Conference on Acoustic Biosensors and Applications is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Acoustic Biosensors and Applications. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Acoustic biosensors  
Acoustic-based biosensors  
Recent advances in acoustic biosensors  
Bulk acoustic wave sensors  
Sensitive and selective liquid-phase microsensors  
Acoustic biosensors for medical and environmental purposes

Electromagnetic excitation of acoustic biosensors  
Quartz crystal microbalance technologies  
Biosensors and biomolecular interactions  
Surface acoustic wave resonators  
Micro/nano-electromechanical systems  
Future directions for acoustic biosensors
