

CALL FOR PAPERS

ICAEAT 2021
Mar 22-23, 2021
Istanbul, Turkey

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICAEAT 2021 : International Conference on Aircraft Engineering and Aerospace Technology is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Aircraft Engineering and Aerospace Technology. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Space missions, systems, and architecture
Antenna, RF/Microwave systems and propagation
Communication and navigation systems
Aerodynamic forces and structural flexibility
Flight software engineering and testing
Observation systems and technologies
Remote sensing
Spacecraft avionics systems, subsystems and technologies
Spacecraft, launch vehicle systems and technologies
Air vehicle systems and technologies

Software and computing
Diagnostics, prognostics, and health management
Ground and space operations
Management, systems engineering and cost
Unmanned and manned spacecraft systems
Materials for spacecrafts
High level panels
Aerodynamic's fundamental concepts
Aeronautical and aeronautical engineering
