

# CALL FOR PAPERS

**ICAEM 2021**  
**Mar 22-23, 2021**  
**Istanbul, Turkey**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICAEM 2021 : International Conference on Aircraft Engine Manufacturing is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Aircraft Engine Manufacturing. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Aircraft engines  
Aircraft engine manufacturing  
Modeling, analysis, and simulation  
of aircraft engines  
The history of aircraft engines and  
their developments  
Aircraft diesel engines  
Aircraft engine maintenance  
Shaft engines  
Reciprocating (piston) engines  
In-line engine  
V-type engine  
Horizontally opposed engine  
H configuration engine

Radial engine  
Rotary engine  
Turbine-powered  
Turboprop  
Turboshaft  
Reaction engines  
Jets  
Turbojet  
Turbofan  
Pulse jets  
Rocket
