

CALL FOR PAPERS

ICAPWMT 2021
Mar 22-23, 2021
Istanbul, Turkey

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICAPWMT 2021 : International Conference on Agricultural Pollution, Waste Management and Technology is

the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Agricultural Pollution, Waste Management and Technology. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Agricultural pollution
Agricultural waste management
Practices and technology
Farm waste management practices
Environmental regulation
Abiotic sources
Pesticides
Pesticide leaching
Fertilizers
Leaching, runoff, and eutrophication
Organic contaminants
Heavy metals
Land management

Tillage and nitrous oxide emissions
Soil erosion and sedimentation
Biotic sources
Greenhouse gases from fecal waste
Biopesticides
Introduced species
Invasive species
Biological control
Genetically modified organisms (GMO)
Genetic contamination and ecological effects
GMO as a tool of pollution reduction
Animal management
Manure management
