

# CALL FOR PAPERS

**ICATA 2021**  
**Mar 22-23, 2021**  
**Istanbul, Turkey**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICATA 2021 : International Conference on Automata Theory and Algebra is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Automata Theory and Algebra. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Automata theory  
Advanced automata theory  
Finite automata  
Combining languages  
Games on finite graphs  
Games played for an infinite time  
Automata on infinite sequences

Automatic functions and relations  
Groups, monoids and automata theory  
Automatic structures  
Transducers and rational relations  
Regular languages and learning theory  
Open problems in automata theory  
Chomsky hierarchy and grammars
