

# CALL FOR PAPERS

**ICAWFAT 2021**  
**Mar 22-23, 2021**  
**Istanbul, Turkey**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICAWFAT 2021 : International Conference on Advances in Wireless Factory Automation Technologies is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Advances in Wireless Factory Automation Technologies. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Wireless factory automation  
Wireless communication for factory automation  
Reliable, high performance wireless systems for factory automation  
Industrial wireless systems  
Wireless systems for industrial environments  
High-performance wireless networks for critical industrial control  
Wireless industrial communication for sustainable manufacturing

5g and mobile networks for industrial communications  
Industrial wireless systems measurements, simulation, and testing  
Selection and deployment of wireless technologies in industry  
Standardization of industrial wireless systems  
Security for industrial wireless systems  
Wired and wireless convergence in industrial systems  
Practical guidelines for field deployment
