

# CALL FOR PAPERS

**ICGCMS 2021**  
**Mar 22-23, 2021**  
**Istanbul, Turkey**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICGCMS 2021 : International Conference on Glass Chemistry and Materials Studies is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Glass Chemistry and Materials Studies. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Glass chemistry  
Glass physics and chemistry  
Recent advances in glass chemistry  
Structure and properties of glass  
Engineering applications and processing challenges  
Novel applications and manufacturing techniques  
Advanced glass processing  
Glass materials technology  
Novel processing technology  
Advanced engineering glass and composites  
Electrical and magnetic glass

Transparent glass and luminescent materials  
Thin-films, membranes and coatings (nanostructured glass)  
Glass for energy conversion and storage  
Glass for environmental and energy applications  
Glass for medicine, biotechnology and biomimetics  
Ceramic and glass materials  
Amorphous materials: common issues within science and technology  
Ceramic matrix composites  
Computational design of glass materials  
Glass and optical materials  
Traditional glass
