

# CALL FOR PAPERS

**ICGM 2021**  
**Mar 22-23, 2021**  
**Istanbul, Turkey**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICGM 2021 : International Conference on Georeferencing and Mapping is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Georeferencing and Mapping. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Georeferencing  
Fundamentals of georeferencing  
The internal coordinate system of a map  
Aerial photo image  
Solid image  
Geographic coordinates  
Aerial and satellite imagery  
Georeferencing tools  
Georeferencing methods  
Geocoding  
Georeferencing of scanned maps

Georeferencing and GIS  
Spatial adjustment of vector data  
Process of assigning spatial coordinates  
Georeferencing satellite images  
Georeferencing imagery  
Georeferencing and spatial adjustment  
Georeferencing standards  
Geographic information systems  
Vision-based georeferencing of GPR in urban areas  
Georeferencing and mapping
