

CALL FOR PAPERS

ICMSMS 2021
Mar 15-16, 2021
London, United Kingdom

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICMSMS 2021 : International Conference on Mathematics, Statistics and Management Sciences is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Mathematics, Statistics and Management Sciences. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Mathematical and management sciences

Mathematics and management sciences

Linear programming techniques

Optimization problems

Matrix methods

Linear equations, graphs and networks

Difference equations

The mathematics of finance

Applied probability and statistics

Decision science

Statistics

Probability

Information theory

Epidemiology

Data mining

Stochastic processes

Strategic management

Industrial organization

Supply chain management

Public management

Financial management

Human resources

Energy and resource management
