

CALL FOR PAPERS

ICPOM 2021
Mar 15-16, 2021
London, United Kingdom

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICPOM 2021 : International Conference on Product Oriented Manufacturing is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Product Oriented Manufacturing. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Product oriented manufacturing systems
Design of product oriented manufacturing systems
Scheduling in product oriented manufacturing systems
Intercellular organization and coordination

Process oriented production system for service providing companies
Lead-time oriented production control policies
Joint optimization of process flow and scheduling
