

# CALL FOR PAPERS

**ICVCS 2021**  
**Mar 15-16, 2021**  
**London, United Kingdom**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICVCS 2021 : International Conference on Vibration Control Systems is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Vibration Control Systems. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Control algorithms, semi-active and active systems  
Passive systems including linear/nonlinear absorbers  
Tuned mass dampers  
Linear/nonlinear viscous dampers

Seismic base isolation/frictional sliding isolation system  
Smooth/non-smooth nonlinear dynamics  
Hysteretic/inelastic energy dissipating devices
