CALL FOR PAPERS

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICVSE 2021 : International Conference on Visualization in Software Engineering is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Visualization in Software Engineering. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Software engineering for self-adaptive systems

Modeling dimensions of self-adaptive software systems

Engineering self-adaptive systems

Architecture-based self-adaptation

Policy-based architectural adaptation management

Goal-driven architectural adaptation

Model-centric, context-aware software adaptation

Self-adaptive applications in ubiquitous and service-oriented environments

Self-adaptation in ubiquitous and service-oriented environments

Component-based adaptive systems

Model-driven assessment

Self-adaptive healing
